OT Compact

Presentation given by Conway, Markels, and Sims on the OT compact and its benefits to licensees and the Board.

Each state would have a delegate, either a Board member or Board administrator.

The compact is optional for licensees. The traditional way of licensure is still available.

If actions are taken in a compact state, it is reported to the home and other compact states. Then it can be determined if further actions should be taken by the home or compact states. If the home state takes action or revokes a license, it is revoked in compact states as well.

The fees for the compact are decided by the home state. Many states have lower compact fees to join a home state than a new license fee to encourage compact licensure for those who qualify.

Current licensees can join a compact if they are already licensed in a home state. It is the decision of the home state Board if the background check is required for those currently licensed.

Proposed Legislation

Boucher said NDOTA intends to propose legislation for the OT compact for the 2025 ND legislative session.
